Sir:

This paper is responsive to the Notice of Allowability and accompanying papers mailed September 28, 2009.

**Comments on Examiner's Statement of Reasons for Allowance**

The Notice of Allowability included a statement of reasons for allowance. The Examiner stated that "the present invention is directed to a reactance adjuster that adjusts reactance caused by an electric field transmittable medium and a communication apparatus for transmitting and/or receiving a signal including data to be transmitted or received via the electric field transmittable medium, a transmitter and a transceiver using the reactance

adjuster, and a signal processing circuit preferable to these.” The specific language used by the Examiner is not recited by the claims. To the extent that the Examiner’s reasons for allowance suggest or state that the allowed claims recite particular claim elements, regardless of the actual claim language, it is noted that “the record as a whole” must be considered as a supplement to the statement of reasons for allowance, and to the extent that the record is clear and complete, it shall control the interpretation of any and all claims.

**Request to Enter Amendment to the Title Submitted March 31, 2009**

On March 31, 2009 an amendment was filed which amended the title. The Title of Invention on the Notice of Allowability does not reflect the amended title. Entry of the amendment to the title is respectfully requested, so that the title reads as follows:

Reactance Adjuster, Transceiver and Transmitter Using the Reactance Adjuster, Signal Processing Circuit Suitable for Use in the Reactance Adjuster, the Transceiver, and the Transmitter, Reactance Adjusting Method, Transmitting Method, and Receiving Method.

If there are any issues that can be addressed via a telephone conference, the Examiner is invited to call the undersigned at 404/685-6799.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Brenda O. Holmes".
